15. RULES “ROOKIE SLALOM”

Is a new division of Slalom, introduced to encourage novice skiers to enter a competition. It will be run as a separate event, and can be used in National and Euro Tour events.

It will not be an event in the European Championships.

It will be run for all categories.

Skiers will ski according to sex.

Any skier who has a score on the present or past Slalom Ranking lists will not be eligible to compete in Rookie Slalom.

When run as part of the EuroTour, it will be run under general EuroTour Rules.

~~For the EuroTour Final 1st Prize in divisions, Men and Women will be awarded.~~

The minimum starting speed for all categories will be: Men 31 Km/h and Women 28 Km/h. The maximum speeds will be: Men 58 Km/h, Women 55Km/h. (see later)

The contestant will be restricted to four passes.

The skier will select his rope length and speed for the first two passes, the chosen rope length will remain constant for both passes. He will then select his start speed and rope length for the second two passes.

The skier is required to notify the dock official of speed and rope length required for all passes prior to start.

The boat may stop after each pass, provided the skier notifies the dock official before he starts his run.

To complete a “virage” a skier is required to cross both wakes, turn and re-enter the wake from the opposite direction. Skier shall follow the tow boat through the entrance gates of the Slalom Course, ski 6 “virages” in a pendulum fashion; commencing with a “virage” from left to right, in the length of the Slalom course. He will proceed through the far end gates – this will be regarded as completing a pass. If his first pass is complete, he will then make a turn and return through the course in a similar fashion for his second pass.

On completion of 2 successful “virage” passes, skier is then required to run the next two passes on the regular Slalom course for his category.

The first two passes will be scored only in full buoys. ¼ and ½ buoys will not be scored. A skier will be awarded a buoy when he crosses the line of the gate, buoys having completed a “virage”. The second two passes will be scored with full value for ¼, ½, and full buoys. Scoring rules regarding A, L, A/L1, A/L2 and MP will not be applied.

The skier may elect to waive some passes; six points will be added to the skiers score for each pass he elects to waive, provided his first pass is perfect. If a skier misses in a pass that follows an optionally waived pass, he shall be scored as if the buoys were scored in the pass following the last completed pass, or the first pass if he did not complete any pass.

For all categories, the sequence of passes will be as follows: Start speed for Men 31 Km/h and Women 28 Km/h, speed increasing in increments of 3 Km/h to a maximum of 58 Km/h for Men and 55 Km/h for Women.

On completion of a 58 Km/h or 55 Km/h pass on “virage” slalom the next pass will be 31 Km/h for Men or 28 Km/h for Women with any constant rope length (see D 14.03) on “regular” Slalom course.

For scoring (for all categories), the first two passes will be scored according to the speed chosen to a max of 58 Km/h for Men or 55 Km/h for Women, the chosen rope length will not be taken into account for scoring purposes. (i.e. the maximum numbers of buoys which can be scored in the first two rounds will be 60). The second two passes will be scored with full value for ¼, ½ and full buoys. Scoring rules regarding A, L, A/L1, A/L2 and MP will not be applied.

The Emanuel Lion Scoring program will not be used for recording the score for Rookie Slalom, a simple spread sheet or other method chosen by the official scorer will suffice.

Samples of scoring:

	John A	John B	John C	John D

Only performances from 1st November of the previous year to 31st October of the current year will be considered for inclusion.

Where a performance is approved as a Europe & Africa Record, this value will be included in the Ranking List using the score approved by the D.C. as the record. If upon reviewing the performance, the record is reduced to a score below the current Europe & Africa Record, or if a performance from a Ranking List competition equals or exceeds the Europe & Africa Record, the score will be limited to the maximums shown below:
